Research statistics dashboard

Tony Fischetti

2021-02-01

Mission

Mission

- one-stop-shop for staff looking for research statistics

Mission

- one-stop-shop for staff looking for research statistics
- general information at a glance

Mission

- one-stop-shop for staff looking for research statistics
- general information at a glance
- powerful enough for interested staff to dig in and find insights that would ordinarily be hidden or impossible to discern

How can I see it

How can I see it

- the dashboard lives on a NYPL controlled domain and is available here:
  https://nypldigital.shinyapps.io/research-dashboard/

Why

Why

- number of limitations/obstacles with current statistics gathering / review process

Why

- ▶ number of limitations/obstacles with current statistics gathering / review process
- ▶ codify knowledge and idiosyncracies

Why

- number of limitations/obstacles with current statistics gathering / review process

- codify knowledge and idiosyncracies

- version control

Why

- number of limitations/obstacles with current statistics gathering / review process

- codify knowledge and idiosyncracies

- version control
    - https://github.com/NYPL/sierra-shadow-dataset

Why

- number of limitations/obstacles with current statistics gathering / review process
- codify knowledge and idiosyncracies
- version control
  - https://github.com/NYPL/sierra-shadow-dataset
- error checking

Why

- number of limitations/obstacles with current statistics gathering / review process
- codify knowledge and idiosyncracies
- version control
  - https://github.com/NYPL/sierra-shadow-dataset
- error checking
- apparatus joins disparate data sources

Why

- number of limitations/obstacles with current statistics gathering / review process
- codify knowledge and idiosyncracies
- version control
  - https://github.com/NYPL/sierra-shadow-dataset
- error checking
- apparatus joins disparate data sources
- powered by a data substrate which is useful independent of the dashboard

Demo

Future

- More helpful options for curators

Future

- ▶ More helpful options for curators
    - ▶ limit languages
